

## THE IMPORTANT WATER BODIES OF THE WORLD

### WORKSHEET 2

**1. Best management practices for water pollution include approaches to reduce the quantity of water use and improvement in water quality. One of the water pollution control method is -**

- A. Using biogas
- B. Use of public transport/ CNG
- C. Planting more trees
- D. Treatment of industrial waste water by effluent treatment plant (ETP)

**2. One of the measures of water pollution is the quantity of dissolved \_\_\_\_\_**

- A. Nitrogen
- B. Chlorine
- C. Oxygen
- D. Carbon Dioxide

**3. Bio magnification means -**

- A. Increasing the concentration of various toxic substance along food chain.
- B. Increasing the concentration of various substances along food chain.
- C. Increasing the concentration of various useful substances along food chain.
- D. Means decreasing the concentration of various toxic substances along food chain.

**4. Which of the following rivers carries the maximum quantity of water into the sea?**

- A. Thames
- B. Nile
- C. Amazon
- D. Indus

**5. Lake Winnipeg is located in which of the following countries?**

- A. United States of America
- B. United Kingdom
- C. France
- D. Canada

**6. Which of the following straits connect the Mediterranean Sea to the Atlantic Ocean?**

- A. Strait of Messina
- B. The Strait of Gibraltar
- C. Strait of Otranto
- D. Dardanelles Strait

**7. How many major 'seas' are present in the world?**

- A. 5
- B. 7
- C. 9
- D. 12

**8. How many major 'oceans' are present in the world?**

- A. 5
- B. 7
- C. 9
- D. 12

**9. Which amongst the following is the largest ocean?**

- A. Pacific ocean
- B. Atlantic ocean
- C. Indian ocean
- D. Arctic ocean

**10. Which amongst the following is the smallest ocean?**

- A. Pacific ocean
- B. Atlantic ocean
- C. Indian ocean
- D. Arctic ocean

**Answers**

- 1. D
- 2. C
- 3. A
- 4. C
- 5. D
- 6. B
- 7. B
- 8. A
- 9. A
- 10. D
